## Nature Of Opinion

Docket Number: E-01461A-15-0363

Docket Position: For

I am a Trico Cooperative member and support Trico's position presented in Docket No. E-01461A-15-0363.

As a Trico member, I expect my utility provider to provide safe, reliable power, purchased by Trico at the least possible cost, and at an affordable cost to me.

I am not anti-solar or anti-other forms of renewable energy. However, I do not support subsidies being paid to other members of my utility cooperative who have installed solar.

I live on a very fixed income of only social security benefits. I cannot and should not be expected to pay for the installation of someone else's solar system and on-going costs related to that system. The poor are subsidizing the rich, which is totally unacceptable. I have been told that to date Trico has been required to pay approximately \$6 million in up-front incentives ("subsidies") to solar customers. As a cooperative, this money belongs to ALL members of the cooperative, not to just those with solar systems.

I urge you to grant the relief requested by Trico in this matter.

Sincerely,

Kay Hawkins
